Re: Letter of reference.

To Whom It May Concern:

It is with great confidence that I put forward this recommendation of Forst Construction, Inc. and its President Michael Forst. When I first met Mike in the summer of 2011, I had only a vague idea of the project and no experience renovating a home. Mike was able to provide the complete solution – design and build from the initial sketch to an outstanding final product.

What you can expect from Forst Construction is an honest process built upon open communication and local knowledge that dramatically simplifies the process. Mike's chosen sub-contractors were high quality craftsmen with a history of working together. The project started on time and was completed a full month ahead of schedule. Mike was incredibly responsive to feedback and always willing to do what it takes to make the client happy.

A commitment to quality and understanding of the importance of a cohesive design makes Mike a great partner in designing and renovating a home. I welcome any specific inquiries to support my recommendation of Forst Construction.

Sincerely,

Paul A. Van Hook
