East Hampton, NY 11937

Attention: Mr. Michael Forst

Dear Michael:

I wish to write you to offer my recommendation to any future potential clients that are looking for someone to build their dream home. I am doing this because I could not be happier with the process and the product.

When I first met you my first reaction was that "this is a no-nonsense individual". I knew that I could believe what I was hearing. You just have that aura about you. As I got to know you I learned that to be true as well as recognizing your tremendous work ethic and your honesty. I never worried about being taken advantage of or having anything but a high quality product. I also learned what a wonderful person and family man you are.

As far as the process Michael, you made it very easy. As a long-distance client we were able to reach agreement on plans and contracts in very efficient meetings. You constantly kept me apprised of all events. Your spouse Amy and your entire staff made everything very easy for us. Accounting and wire transfer as well as change orders were very simple.

As to the final product Michael, you made my dream a reality. My family will love this house as much as I do and will enjoy it for generations to come. I would highly recommend you to anyone interested in working with you and, who knows, maybe we'll even do another project together.

Sincerely,

Carol
