To Mike Forst and staff at Forst Construction,

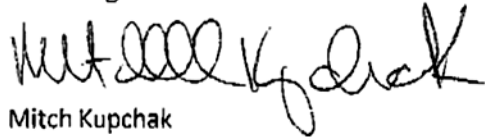

As you know we moved into the home you built for us about a week ago. Hard to believe you broke ground less than a year ago and the home is completed from top to bottom, including pool and landscaping!

It has been a pleasure to work with Forst Construction for many reasons, but most of all we appreciate the home being built on time, within budget and with the quality and care we had hoped for.

We never thought building a home from over 3,000 miles away would go so smoothly. Feel free to reference us and our new home when talking to prospective clients.

I can't begin to tell you how happy we are that we picked Forst Construction to build our home in Amagansett!

Thanks again

Mitch Kupchak
